Focus on Home, Winner of ESCCO Bill Phillips Award

Executive Service Corps of Central Oklahoma (ESCCO) is proud to announce its 2018 Bill Phillips Award winner: Focus on Home.

The mission of Focus on Home is “To serve families in need by providing the means for a dignified home, creating a clearer path towards a stronger future.” Working with other community agencies, Focus on Home supports deserving families by providing gently used, donated furniture and household necessities. The organization’s goal is “to help families create comfortable homes where they can live, love and grow strong, allowing parents to devote their time and resources into creating positive futures for their children.”

“It’s incredible that when people who didn’t have a home move into a home of their own. But they walk into a completely empty space. Where will they eat? Where will their kids sleep?” explained Joli Sanders, Focus on Home founder and executive director.

As the Bill Phillips Award winner, Focus on Home will receive an ESCCO management review, a comprehensive, independent, examination of its organization, designed to make actionable recommendations to improve their overall effectiveness. This will be performed by an ESCCO team of business professionals. Past Bill Phillips Award recipients include: 2017—Single Parent Support Network, 2016 – Cleats for Kids, 2015—Jesus House, 2014—Family Builders (formerly Parents Assistance Center) and 2013—Edmond Mobile Meals. The Bill Phillips Award was established to recognize and honor the contribution of the late Bill Phillips, the founding Executive Director of ESCCO.
